

TRI-STAR (OPS)

ONE PIECE CONTAINMENT SYSTEM

(Pictured Above) Tri-Star OPS Containment Pad configured for the 2,500g 978 HEMTT refueler. System Dim. 40' long by 12' wide by 10" high, Capacity – 2,900g (110% of refueler). Entry ramp extends 3' outside and 3' inside the sump end wall. Interior half of ramp is integral to sump.

TRI-STAR OPS:

- Steel plate construction
- Up-grade to Tri-liner crush proof walls
- Epoxy Coating – Up-grade to fiberglass
- Non-slip deck surface
- Heavy duty one piece Ramps
- Various lengths to meet your need
- Drain Ports in all four corners
- Filter Berm for safe rainwater release
- Easy to relocate
- Meets & Exceeds EPA guidelines

The Tri-Star OPS is delivered prefabricated as a one piece seamless sump, ready for immediate use! Simply bolt on the entry ramp (2 bolts) and drive-in. Relocation is just as easy.. lift sump onto a flatbed truck.. drive to the new site.. off load and drive in.
